

DEMO CLINICAL PATIENT REPORT

Synthetic training/demo document for TrialMatchAI — not a real medical record and not for clinical use.

1. Patient Identification

Field	Information
External Patient ID	PT-REPORT-001
Date of Birth	1981-04-12
Age	45 years
Sex	Female
Report Date	2026-08-15

2. Primary Diagnosis

Diagnosis: Invasive ductal carcinoma of the breast

Laterality: Left breast

Disease Stage: Stage II

Histology: Invasive ductal carcinoma

3. Biomarker / Pathology Information

Marker	Result
Estrogen Receptor (ER)	Positive
Progesterone Receptor (PR)	Positive
HER2	Negative
Ki-67	Approximately 18%

4. Current Medications

Medication	Dose	Frequency	Status
Tamoxifen	20 mg	Once daily	Current
Amlodipine	5 mg	Once daily	Current

5. Treatment History

The patient underwent breast-conserving surgery (lumpectomy) followed by adjuvant radiation therapy. The patient is currently receiving endocrine therapy with tamoxifen.

6. Laboratory Results

Test	Result	Unit	Observed Date
Hemoglobin	13.2	g/dL	2026-08-13
Creatinine	1.2	mg/dL	2026-08-14
WBC	6.4	$\times 10^9/L$	2026-08-13
Platelets	245	$\times 10^9/L$	2026-08-13
AST	24	U/L	2026-08-14
ALT	22	U/L	2026-08-14

7. Comorbidities and Allergies

Comorbidity: Hypertension

Allergies: Penicillin — rash reported

8. Performance Status

ECOG Performance Status: 1 — patient is ambulatory and able to carry out light activities.

9. Clinical Notes

Synthetic clinical summary: Patient is currently clinically stable and attending routine oncology follow-up. No acute symptoms are documented in this demo report. Current treatment and laboratory values should be verified against the source record before any clinical decision.

10. Information Extraction Guidance

This document is intentionally structured to test TrialMatchAI's report ingestion pipeline. The system should extract diagnoses, medications, laboratory values, biomarkers, treatment history, comorbidities, allergies, ECOG status, age, sex, and other eligibility-relevant information from the report. Missing information must remain UNKNOWN rather than being inferred.

DEMO ONLY — This synthetic report contains fictional patient information generated for software testing.
